ONE BY ONE.

FROM HOUSEHOLD WORDS.

One by one the sands are flowing,
One by one the moments fall;
Some are coming, some are going,
Do not strive to grasp them all.

One by one thy duties wait thee,
Let thy whole strength go to each;
Let no future dreams elate thee,
Learn thou first what those can teach.

One by one (bright gifts from heaven)
Joys are sent thee here below;
Take them readily when given,
Ready too to let them go.

One by one thy griefs shall meet thee,
Do not fear an armed band;
One will fade as others greet thee,
Shadows passing through the land.

Do not look at life's long sorrow;
See how small each moment's pain;
God will help thee for to-morrow,
Every day begin again.

Every hour that flects on slowly,
Has its task to do or bear;
Luminous the crown, and holy,
If thou set each gem with care:

Do not linger with regretting,
Or for passing hours despond;
Nor thy daily toil forgetting;
Look too eagerly beyond.

Hours are golden links, God's token,
Reaching heaven, but one by one
Take them lest the chain be broken
Ere thy pilgrimage be done.

NORTHERN IOWA—LAND SALES.

Osage, May 11, 1857.

Messrs. Editors:—Many of your readers desire to know something of this new land of promise, and with your permission I will give them the results of some observation and inquiry. Osage is the County seat and principal town of Mitchell county, and is about 100 miles from the Mississippi River, and 150 miles, by the road, from Dubuque. Osage is a growing town, of 18 months, and contains about 1000 inhabitants; it is delightfully situated upon "Fawn Prairie," and embraces a portion of the great red cedar grove, which is one of the finest timber portions of Iowa. Messrs. Holdship & Co.—three brothers—grand sons of the late H. Holdship, of Pittsburgh, are among the proprietors, and I am happy to learn, have realized something handsome in return for their enterprise. They have a banking house there and are active, intelligent business men, and are doing a fine business. The country along the road, near the River, is very fine, indeed, that is, that portion of all that portion of Alamakee county through which the road runs. It is gently rolling after you rise the bluff land, and sufficiently well timbered to please a Beaver county farmer. The soil is very rich and far superior to our lands. The next County is Minneshiek; in passing through this county we find those large rich Prairies which delight an Illinois farmer, and makes a Pennsylvanian wonder where fencing and lumber are to be obtained. "Second hand" lands, that is lands that have been pre empted, or entered with land warrants for a year or more, are worth from 4 to 10 dollars per acre—unimproved. Improved lands from $8 to $30. Howard county is the next county westward, and is of pretty much the same character of Winneshiek. Timber is very scarce and must be very high, before those vast Prairies are all under cultivation; but this objection does not appear to deter settlers or speculators. Mitchell county is next westward, and is considered among the most promising counties in the interior. The timber along the Red Cedar River is of very fine quality, and very abundant, skirting the east side of the River with a belt one mile in width, of oak—white, red and black—walnut, maple, &c. Timber land is worth from $20 to $35 per acre. Prairie from $5 to $10 per acre. North Winnebago and Hancock are also in this land district, and portions of those counties are now being offered at the public sale, which has been in progress for a week past.

Those last mentioned are sparsely settled, but as emigration is pouring its hundreds into this region, we may safely predict that the most desirable lands will soon be cultivated.

A scarcity of timber characterizes this whole country, but I believe that none are so destitute as Kossuth county, and I would whisper a hint in the ears of your readers, to be careful how they invest in lands in that county, or they may have the satisfaction of long continuing to be owners of real estate in Iowa, after they might wish to part with their interests in those "rich Prairies."

The desire to become land holders in the West has extended itself throughout our land. Speculators are here from 25 of the States and Territories, with land warrants sufficient, almost, to cover the entire land to be offered for sale. The interests of the Warrant Speculator and Gold speculator clash, and produce difficulty, while the settlers, real and bogus, were at war with both classes.

The Land Warrant man desired the sale to be permitted to pass over without any bidding—This plan with his "pocket full of rocks" wished the sale to progress and the highest bidder take the lands, inasmuch as warrants could not be secured for lands sold at public outcry; this was resisted by the Warrant men, and they combined with the settlers to offer bogus bids made by men of straw. To complicate the matter still further, the settlers, both real and bogus, claimed the right to bid off an extra one-fourth section, which, added to their pre-emption, gives them each 320 acres at $1,25. These hostile interests produced an intense excitement, and it was feared that the hostile parties would come to an open rupture at the opening of the sale; but, owing to the calm and independent course adopted by Col. Jenkins, a collision was prevented. The settlers soon found that they were in a minority, largely so—numbering about 500—while the speculators numbered, probably, 850. The settlers were headed by a man by the name of Barker, (originally from New England,) and each man carried a heavy newly cut "cudgel" in the shape of a cane.

On the other hand, I presume that fully three-fourths of the speculators carried "Colt's Revolvers." When the parties were brought face to face, before the door of the land office, it was very apparent that the settlers could not carry their point by force, so they resorted to a wiser course and bid off the lands at prices ranging from $2,50 to $1,03 per acre. The lands thus bidden off on Monday, were put up again on Thursday, and so continued until the settlers drove the speculators to their terms.—That is, that they should have their second quarter section at $1,25, without opposition—This was agreed to and the balance goes over for entry with cash, or location by land warrant. This was a grand triumph for the settlers, and one which I was glad to see them achieve. If favors are to be granted, who is so well entitled as the man who opens up a new country? I espoused the cause of the settlers from the first, believing that they deserved all that they asked for.

The speculators, numbering 800, are sorely disappointed, as they all had to have registered their names, and will draw numbers, which will indicate the order in which they will be permitted to enter the land office, after the sale, to make their location and entries, each one being restricted to enter but one-half section—320 acres. Many think that the plan will not work, and that large operators will monopolize Western lands will rise in value for some time yet. This is clearly shown by the numbers of capitalists that are here seeking investments. It is estimated that over one million of dollars are represented here to be invested in ——

Now, as to the inducements held out to a Beaver county farmer to come to this Northern country. First, the land is cheaper and far better than in Beaver county. Second, the rapid appreciation of lands in this region may set a poor man, who can obtain a good location, forward very fast. The country is generally healthy, but as those rich Prairies are exposed to the action of the sun, the Plough and the air, more or less of Fevers may be expected.

Objections. First, climate. It is a much colder country than ours, and the winds are truly terrible in the winter. I have been in the country three weeks, with but one or two pleasant days, and for the last three days we have had a terrific blow—nasty, dirty blows, apparently from all points of the compass, filling your eyes, ears and clothes with dirt, and raising the very soil into the air. Many settlers have told me that they would not stay another winter, did they suppose that we were to have any more such as last winter.

One poor fellow, from Winnebago county, told me that the great storm of January came upon him without having his hay near his house, and before he could get out to break the road to his hay his horses and cattle starved in their pens. Several settlers have informed me of cases of the greatest suffering, some having to haul a bushel of corn meal upon the crust of the snow, on a hand sled, 20 and 25 miles.

Two men, Alexander Long and Mr. Meyers, started from their cabins in Winnebago county and were overtaken by the great snow storm of January, when upon a wide Prairie; they became bewildered and lost. In March their bones were found, and were identified by the boots of Mr. Long. The wolves had eaten their flesh. It was a terrible winter to be passed in such huts as the settlers live in throughout this country. Had the people the materials convenient to build comfortable houses they would doubtless do so; but timber is scarce and dear, and emigrants poor, hence great suffering. When Railroads are built these difficulties will be obviated. A very poor man ought not to settle on a wide Prairie—distant from settlements—a rich one will not.

Yours truly,

Things to Remember.—A surveyor's chain is 4 poles, or 76 feet, divided into a hundred links, or 792 inches.

A square chain is 16 square poles, and 10 square chains is an acre.

Four roods are an acre, each containing 1,-240 square yards, or 34,787 feet, or 24 yards 28 inches on each side.

A pole is five yards and a half each way.

An acre is 4,840 square yards, or 69 yards 1 foot 8½ inches each way, and three acres are 120½ yards each way.

A square mile, 1,760 yards each way, is 640 acres; half a mile, or 880 yards each way, is 160 acres; a quarter of a mile, or 440 yards each way, is a park or farm of 40 acres; and a furlong, or 220 yards each way, is 10 acres.

Truth.—Sterne says, "The grand error of life is, we look too far; we scale the heavens—we dig down to the centre of the earth for systems—and we forget ourselves. Truth lies before us; it lies the highway path, and the ploughman treads on it with clouted shoes."

A Heavy Libel Suit.—Dr. L. F. Andrews, editor of the Georgia Citizen, has been sued for libel, to the tune of $20,000 for publishing the name of a subscriber who had moved off without paying his subscription dues.

LATEST FROM EUROPE.

New York, May 19.

The Niagara has arrived from Liverpool, with advices to the 9th inst

The political news brought by the Niagara is not important, with the exception of the speech of Queen Victoria, which was read before Parliament on Thursday, the 7th inst. In relation to the United States, the speech merely says that the negotiations with regard to Central America are still unsettled.

Parliament opened on the 7th. The Queen's speech is in substance as follows: We are commanded to inform you that her majesty avails herself of the earliest opportunity of having recourse to your advice and assistance. Her majesty hopes there will be found sufficient time during the present session to enable you to deal satisfactorily on various important matters, some of which occupied the attention of the late Parliament. We are commanded by Her Majesty to inform you that the aspect of affairs in Europe affords a well-grounded confidence of a continuance of peace. All the main stipulations of the treaty of Paris have been carried into execution and it is hoped that what remains to be done in regard to those matters will be speedily accomplished.

The negotiations on the subject of the differences between Prussia and the Swiss Confederation, in regard to the affairs in Neufchatel, are drawing to a close, and will, Her Majesty trusts, be terminated by an arrangement satisfactory to all the parties. The negotiations, in which Her Majesty is engaged with the government of Honduras, in regard to the affairs of Central America, are not yet closed. Her Majesty commands us to express regret that at the latest advices the difficulties between the High Commissioner of China and Her Majesty's civil and naval officers, remains unadjusted; but Her Majesty has sent to China a plenipotentiary fully instructed to deal with all matters of difference, and that the plenipotentiary will be supported by an adequate military and naval force, in the event of such assistance becoming necessary. We are commanded by Her Majesty to inform you that the treaty of Peace between Her Majesty and the Shah of Persia was signed at Paris on the 4th of March, by Her Majesty's ambassador at Paris and the ambassador of the Shah of Persia, and Her Majesty will give directions that this treaty shall be laid before you as soon as ratifications are exchanged.

We are commanded to inform you that Her Majesty, in conjunction with several European powers, concluded a treaty with the King of Denmark for the redemption of the Sound Dues. This treaty, together with a separate convention between Her Majesty and the King of Denmark, completing the arrangement, will be laid before you, and Her Majesty will cause measures necessary for fulfilling arrangements thereby contracted, to be submitted to your consideration.

The speech then refers at length to business matters of a local nature, and closes by congratulating Parliament on the continued well-being and contentment of Her people, and the progressive development of productive industry throughout Her dominions.

The East India Company has decided to take a limited part in the operations at China. The Minister of Marine has suspended his preparations to despatch troops to China.

Advices from Paris show a very great improvement in the specie resources of the Bank of France.

The Americans at Paris tendered to Senator Sumner a public dinner, which he declined.

Portions of Spain are disturbed. Malaga lins been placed in a state of siege.

Seven war vessels are under orders to sail from Cadiz with troops for Havana.

Persia.—There have been further hostilities. The city of Mohammerah was captured by the British on the 26th of April. The Persians retreated in great disorder, with a loss of 300 killed and wounded and an amount of ammunition and military stores The British loss was trifling. The Arab tribes were friendly and submissive. Sir James Dutram had driven a large Persian army from its position before Ahivas, capturing guns and military stores.

London.—Advices announce authoritatively the ratification of the Anglo Persian treaty by the Shah.

The Times City article says that the funds have entirely recovered from the sudden and unexpected depression of yesterday, the market being strengthened by large investments of exchequer bills.—There was much steadiness in foreign exchanges. The demand at the Bank for money was very active.

Freshet in Alabama.—The Savannah Republican states that the Alabama river has risen to a point which has not been reached in a number of years. Large fields are completely overflowed, and in some cases barns and negro houses are in great danger of being floated away. It will probably be two weeks before the land can be touched, rendering a crop very uncertain. This, combined with the unpropitious season already experienced, has cast a gloom over the prospects of the entire farming interest in that region.

Women Wanted out West.—The editor of the Iowa Reporter calls with a stentorian voice for Ladies to come West. He says: "The last census report shows that there are 33,710 more males than females in Iowa. This was taken in June, and does not include the Spring or Fall emigration. We are now minus at least 60,000 ladies, to make up our quota."

☞ It is estimated that the clergy cost the United States $12,000,000 annually; the criminals $40,000,000; the lawyers $70,000,000, and liquors $200,000,000.

KANSAS.

Ever since the purpose of the territorial authorities of Kansas became apparent, the question with regard to the Free State men has been, not whether they *ought* to vote, but whether they *could*, if they were willing to. It is now plain that the territorial officers never intended that they should have the opportunity to vote. A correspondent of the Chicago Tribune writes:

"The time has now passed when Free State men can have their names registered, and the different Sheriffs have returned their lists of so-called "qualified electors" for voting for delegates to the bogus constitutional convention. These lists make out the Free State vote of the Territory to be some *few hundred* in all."

The correspondent of the New York Herald says:

"There are thirty organized counties and seven unorganized attached to adjoining organized counties. Of these, but ten counties have as yet been officially heard from, leaving twenty to be returned; but some of these counties are almost unsettled, so that we can make a calculation which will appear small to the total of registered voters, which it is presumed will reach a total of ten thousand of the registered voters. There is probably a majority in favor of a pro-slavery Constitution of say 2,000. There are probably, at least, 5,000 voters not registered."

This was written on the 8th inst. The revised lists were to be completed by the 1st, yet a week subsequently only ten counties had made returns, and it was then certain that at least one thousand Free State voters had been purposely omitted from the lists.

A correspondent of the New York *Times*, assigning many other good reasons for the course adopted by the Free State men, thus states the impossibility of securing a fair expression of opinion, even were all other objections waived:

"Were it indeed possible for a fair vote to be secured at the June election, the argument for participation would be tenfold stronger. But we know this to be beyond hope. The voting there is done already; and the electors are the Sheriffs and Probate Judges In making up the census and registry lists, enough has already been done to show that—

1. The mass of Free State names are ——

2. Their places are filled by names of actual non-residents, claiming citizenship through the very outrages of the past.

3. The distribution of the delegates is so made on this *false* basis as to preclude the possibility of a Free State majority, notwithstanding our proportion is as nine to one!

In view of these facts what madness would it be for the people of Kansas to abandon their now impregnable position, and mingle in this election."

The *Herald* and *Times* are both upon the side of the Administration in this matter; and we therefore give great weight to the testimony taken from their columns. —*Pitts. Gaz.*

The Rev. H. W. Beecher Described.

In a lecture, delivered by the Rev. I. West, of Brooklyn, the subject being 'Characteristics and Contrasts of Celebrated Preachers—the Rev Robert Hall, the Rev. Dr. Spencer, the Rev Henry Ward Beecher, and others," it was stated of Mr. Beecher that "his tones at times are soft and tender, of a silvery sweetness; they have fairy music in them, like flowing streams; at other times a compass and a grandeur like the crash of thunder. Few write the song of the sirens and the deep music of the cataract. In relation to his fancy, if he paints it seems not done for a slow of cold beauty, but to burn his thoughts on the mind, like a potter his colors on his wares. He can be no vocal blending or actor; every law of truthfulness appears upon him.

The hot branding iron is put in the human hydras of selfishness. His imagination is rich, and rough at times; he can convey you almost spell bound to the realms above the tempest—the pure atmosphere, where the soul can relax and rest—or lead you, as by torch-light, down into the mysterious depths that appal with glances and phantoms. Thrown into his mind as a crucible, the mass of every-day materials come forth by his processes of thought, in new and beautiful forms, as air and ashes become the rose and the lily by the wonderful alchemy of nature But the flood light of this sun and soul of pulpit power seems, to us at least, and it is the best of the whole, to let its effulgence fall upon the cross, and the grace of the sufferer and sacrifice.

A Change that is a Change.—The Free State men have bought out that notorious Pro-Slavery hole known as Atchison, and converted it into a Republican town; but that is not all; Robert McBratney, formerly editor of the Xenia *Torchlight*, O., has purchased the *Squatter Sovereign*, edited by Stringfellow, and has changed it into a Republican paper! Just think of the infamous *Squatter Sovereign*, the pet organ of the ruffian invaders, becoming a leading "Abolition" paper, as it will, under the talented management of its new editor. There is something new under the sun.

Mind and Body.—By too much sitting still the body becomes unhealthy, and soon the mind. This is Nature's law. She will never see her children wronged. If the mind which rules the body ever forgets itself so far as to trample upon its slave, the slave is never generous enough to forgive the injury, but will rise and smite its oppressor. Thus has many a monarch been dethroned.

A MOIST CLIMATE

John Phœnix, poet, philosopher, humorist, and a correspondent of the Knickerbocker Magazine, has been sojourning in Oregon, and thus gives utterance to his experiences in that climate, in a letter from Portland, Oregon Territory:

It gives me unfeigned pleasure to inform you that I am about to quit the gloomy and never to be dried up sky of Oregon, and "repair, without unnecessary delay," to D—, on our borders. Yes sir, I'm off; 'services' no longer required on these inclement shores—shores which, when you read of, in Irving's "Astoria," you naturally wish to behold, and admire old Astor's pluck in making establishments thereon, and which, when you reach, you wish you had'nt and admire still more old Astor's good sense in breaking his establishments up and quitting while there was time.

Rain is an exceedingly pleasant and gratifying institution in its way, and in moderation It causes the grass to grow, the blossoms th flourish, and it is a positive necessity to the umbrella-maker; but when you get to a country where it rains incessantly twenty-six hours a day for seventeen months in the year, you cannot resist having the conviction forced upon your mind that the thing is slightly overdone. That's the case in Oregon. It commenced raining pretty heavily on the third of last November and continued up to the fifteenth of May, when it set in for a long storm, which isn't fairly over yet. There's moisture for you. Congress has named the northern half of it, the new territory, Washington, on account of its wetness, I suppose, as I can divine no other reason for giving that name to a country on Puget's Sound, Pacific shore.

The consequences of this awful climate are just what might be supposed. The immense quantity of the protoxde squirted about here causes trees, buildings, streets, everything to present a diluted appearance. The woman lose their color, the men their hair, (washed off sir,) and the animals, by constant exposure, acquire scales and fins like the native of the great deep. In fact all the inhabitants of this Territory have a generally scaly appearance and rejoice in a peculiar combination, I should say, of a fish ball and fresh mudsucker. The rains of Oregon beat everything in that line that I ever beheld or conceived of. Those heavy; those of Nero, Caligula and L. Neely Johnson not more terrible, nor those of Lady Suffolk and Moscow longer or stronger which, is a slightly mixed metaphor of a very happy description. So upon the whole, I'm glad I'm off; yes, I am quite sure of it and I long to get to D—, where the people enjoy the light of the blessed sun, and where I can enjoy it also, and dry my things, and read Irving's "Astoria."

Howbeit there are many interesting and curious things in Oregon; many odd and entertaining people also there; and I have seen much that was funny, and laughed thereat; and should have laughed louder and longer if my mouth had not been filled with rain before I had half finished; and I might, perhaps regret leaving a country in which I have had so much positive enjoyment were it not that I have chronicled all these amusing things and peculiarities, and shall be glad to get somwhere where I can have a dry laugh over them. Such a thing as "dry humor" in Oregon is of course a physical impossibility.

Spelling in the Boston Custom House.

A Boston correspondent of the New York Times writes as follows:

You know that Canibalism has been introduced at the Custom House, and the Democrats are devouring one another.—The first detatchment of the newly appointed were initiated yesterday. Most of them are from the country, and very green. I noticed in the number the name of a resident, of a neighboring town, in which though a Democrat, he became tax collector, by underbidding every body else who desired the office. When his books were examined at the end of the year, the letter 'f' was found marked against the names of some fifty persons on his list. 'What does this 'f' mean?' asked one of the examiners, 'and here's another, and another. 'Why don't ye know?' answered the tax collector, 'them's the people that I called on that 'fused to pay. I asked 'em for the money and they 'fused, so I marked 'em 'f' for 'fused.'

An incident happened at the Custom House on Thursday afternoon, indicative of equal intelligence. Its outlines I believe, are already in the newspapers, and it deserves circulation. One of these strapping up country Democrats arrived at the foot of State street in a cab, on which were piled his three trunks. They were safely landed on the granite steps of the building, the driver was paid, and Jonathan hunted up the Irish porter and told him to take 'them trimmins' up to his 'room.'—'What room?' inquired the porter. 'Why you darned fool, my bed chamber, and be quick about,' responded the indignant Inspector. It took some time to convince him that the 'Aids of the Revenue' are not fed, lodged and clothed on Uncle Sam's premises. He had come down from his verdant fields to take the office with large expectations.

☞ The New York Post, mentions as a singular fact, that the women of New York, almost unanimously, hold that Dr. Burdell was murdered by Mrs. Cunningham.

☞ Letters from Naples represent a spirit of discontentment spreading very generally among the Neapolitan troops. There had been some local disturbance in the Papal States, occasioned by the collection of unpopular taxes.

BEAUTIES OF MORMONISM.

President Kimball one of the Mormon High Priests at Utah, thus speculates over the increase of population in that country of polygamists:

How long do you suppose it will take a little man like me, though I feel perfectly able to thrash any six common wicked men, if I am faithful in keeping the commandments of God and true all the days of my life to my brethren, as I have been hitherto and mean to be more so, to get into the celestial kingdom of God [illegible] posterity, in case there should be no obstruction? How long do you suppose it will be before my posterity increases to over a million? A hundred years will not pass away before I will become millions myself. You may go to work and reckon it up, and twenty-five years will not pass away before brother Brigham and I will number more than this whole Territory. In 25 or 30 years we will have a larger number in our two families, than now is in this whole Territory, which number more than 75,-000. If 25 years will produce this amount of people, how much will be the increase in one hundred years? We could not number them, or if we did sum up the amount to any given time, they are still on the increase.

But some of you are taking a course to spend your lives for nought while brother Brigham and I am becoming like Abraham, Isaac, and Jacob, and the Prophets. Why do you not be profitable to yourselves and put out your lives to usury? Do you understand me?

Flocking to a Hanging.

Thursday was the day appointed for the execution of Jackson at Chicago, but that morning the papers published the order of the Supreme Court, staying the execution. The people, however, had made up their minds to enjoy the hanging, and would not believe but that the publication of the reprieve was a humbug, designed to deprive them of a pleasure to which they had looked forward with great eagerness.

Early in the day, groups began to cluster about the Court House, and flatten their noses against the jail windows, and climbed upon each other's shoulders to peep through the mysterious gratings, to catch a glimpse of the doomed. Wagons from the country with their freight of men and [illegible] to [illegible]

The crowd lingered all day and went home in great vexation that they had not seen the hanging. The Press says:

"We could almost persuade ourselves that were an enterprising Cannibal Islander to obtain a license for the public grill of a brace of plump Christians over a slow fire in the vicinity of Chicago, on a certain day, our city and suburbs in every direction would swarm with thousands gathering in to witness the aforesaid culinary process."

Land Speculations.—The Chicago Journal predicts bankruptcy for speculators in Western lands. It says:

"Such a result is inevitable, sooner or later. It cannot be otherwise. In the newer States and Territories lands are held and sold at almost fabulous prices, and all classes of people are wild with the land mania. In Kansas, disturbed and agitated as that territory is, town lots are sold at hundreds of dollars per foot, and wild lands scarcely trod by the foot of civilization, are held at prices very far above their real value for any practical use. At some points in the more recently organized States, thirty, forty, fifty and even one hundred per cent. is offered for money to invest in real estate. It is impossible that such a state of things should long exist. Lands cannot continue to go up, *ad infinitum*. There must be a stopping place somewhere, and when that is reached, they will drop to their real value for practical purposes."

Large Speculations in Sugars and Teas.—As it is anticipated the sugar crop of Cuba will prove a short one, the agents of Spanish houses in New York, it is said, received on the 14th inst., large orders to purchase in the latter market on speculation, and prices immediately advanced from ¼ ¢ cent per lb., fully recovering the previous depression. According to the Herald, on the 15th and 16th inst., the sales amounted to about 4,000 to 5,000 hhds., and 6,000 bbls., of refined crushed sugars, of an aggregate value of over one million of dollars. The hogsheads sold weighed about 1,400 lbs. each, which a current rates, averaged about $1,50 per hogshead. On Saturday last there was also a large speculative movement in teas at an advance of 3c. and 5c. per lb. for all the lower grades, while the higher qualities were sold at very full prices.—Prices, it is said, have still an upward tendency.

☞ Never hear ungenerous strictures upon the conduct of a woman with a quiet smile, instead of saying in thunder tones, 'It it false, sir.'

Never fall back from a bargain after the articles of agreement are drawn up, and only need your signature to make them perfect.

Never insult the modest by ribaldry, the grave by levity, nor the pious by contempt of sacred things.

Never be guilty of any of these offences against decency and propriety; if you are, you are no *gentleman*.

I and J.—There are no two letters in the manuscript alphabet of the English language, which cause so much misconstruction as I and J, as most people write them alike, a rule which deserves to be universally adopted, is to run the J below the line, and I over with the line.

HORTICULTURAL NOVELTIES.

Any thing is novel that is new. We have had in the past few years decided acquisitions to our horticulture.

First comes the Chinese Yam. Taking one half that is said in its favor to be true, it must prove invaluable to the country. Although it may not prove nutritous as the sweet potato, yet its proof against rot and frost will go a long ways to make up for it. We have long felt the need of just such a vegetable, but never dreamed that we should realize it in this "sweat of the brow" posterity.

Next comes the Hoo Sung. This is a substitute for asparagus, equally as delicious, and yielding much more abundantly. Hoo Sung will be as common in four years as lettuce, and as easily obtained. It is cultivated in drills. The seed stalks before blossoming are the parts eaten.

Next comes the Chinese Sugar Cane.—There was never a better time to introduce it than now, when common brown sugar is fourteen cents per pound, and molasses eighty cents per gallon And it will be introduced; millions of gallons of syrup will be made, where the frost will not permit the sugar cane of the tropics to grow.

Next comes the Chufer or Earth Almond. This is a pleasant, agreeable nut as a conserve, and no doubt will prove invaluable for hogs.

Next comes the Pie Melon, a good substitute for green apples in making pies.—From our own experiments with the above novelties, we are inclined to think they will prove of real value to the country. Everything new is called a humbug until it has become common, then it is a humbug no longer.

Whoever originates a new, by hybridigation, deserves well of his country, and whoever brings to light nutritous edible qualities in neglected, despised plants, deserves equally as well. Hence are few things new under the horticultural sun. All the novelties spoken of above, are but introductions from older countries. Have we nothing among ourselves, neglected as a wilding, that may be domesticated in the garden with profit, for the table? Could the seed of the poke not be imported with a highfalutin name, and sold at a big price? Poke greens would grace every table in the land. Common as they are, there are few esculents superior to them when properly prepared.—*American Cotton Planter*

Cheating in Feathers.—An Ohio correspondent sends us a circumstantial account of a fraud habitually practised by a band of rascally pedlars, who have their den in that State, but who scour Western Pennsylvania, Western New York and Indiana as well, intent on the purchase of Feathers, and some other household products, which they weigh so as to cheat the settlers of more than a third of their value, by attaching the weight of their steelyards dexterously to a *wrong hook*, and so causing them to give false weight, though the steelyards themselves are perfectly accurate. Our correspondent states that quite a number riot all winter on the booty thus wrung from the poor and ignorant or credulous.—Let all housewives beware of them, and consider well the policy of trading *at all* with pedlars who are utter strangers, and of whose integrity they have no assurance. —*N. Y. Tribune.*

Murder of a Pennsylvanian.—H. K. Eaton and Robert Webb, passengers on the steamer Rocket, from Pittsburgh for Kansas, having stepped ashore at St. Louis to visit a newspaper office, were on their return to the boat, assaulted, by robbers it is supposed, and Webb so severely injured that he died the next morning. Eaton's wounds are very dangerous, but not necessarily fatal. Mr. Webb was from Lewistown, Pa., and was on his way to Sargent's Bluff: Kansas, for the purpose of establishing a newspaper. He had a press and materials along with him. He was a young man just of age. The murderers are not known.

Henry K. Eaton, the survivor, is a physician, and on his way to practice his profession in that territory.

How America was Peopled.—Rev. Dr. Hawks, a learned and eloquent scholar, has recently been delivering a series of lectures, intended to show that this continent was peopled from the Old World, at different eras and by different races. First from the shores of the Mediterranean, which was the earliest seat of commercial enterprise, and the people from which left their record upon the vast ruins of Yuctan; next from China and Japan to Mexico, Central and South America, and next from Northern Asia, from which the American tribe Indians came. These theories are sustained by remarkable analogies between the languages prevailing in different parts of the Eastern continent with those to be found on this continent.

☞ The Washington Union says there is now owing to that paper the enormous sum of $70,000 for back subscriptions.—It announces that hereafter the business of the establishment will be conducted on strictly cash principles.

☞ The latest accounts from Kansas report acting Governor Stanton as going through the territory spouting Hiawaths. He imagines that all the people there both red and white men, are savages and should be addressed in language suited to wild beasts.

☞ A young man named Knox, a printer, has met with a sad bereavement. An uncle whom he had never seen, died the other day, and left him $75,000. Mr. Knox has the sympathy of the entire community.

WASHINGTON, May 23.—It is not true that Gov Wright, of Indiana, or any other person has been selected for the Governorship of Utah! The difficulty exists in finding a man suitable for the emergency.

The Marshall of the district of Columbia has given notice to Mr. Blanchard, one of the Printers of the National *Era*, and David A. Hall, of his intention to sell their property to pay the bail forfeited by General Chaplin, who is charged with the abduction of slaves from this District.

Kinman the California hunter, presented the Buk Horn Chair to the President this afternoon. He was introduced by Gen. ST. LOUIS, May 23.—The *Republican* publishes a letter from Mr. Brown the editor of the *Herald of Freedom*, to Mr. Brewerton, the correspondent of the New York *Herald*, which shows that a serious difficulty had occurred between Governor Robison and Mr. Brown. The former charges the latter with an attempt to sell the Free State party to Governor Stanton, on condition of being released from prison.—Brown denies the charge, and calls Mr. Robinson an unmitigated liar, and requests Mr. Brewerton to represent him so.

General Harney, and Mr. Orr, of South Carolina, had arrived in the territory.—The latter declined a complimentary dinner.

SHELBURNE, N. S., May 23.—The ship Robert S. Lane, with six hundred emigrant passengers, bound from Liverpool to New York, struck on Brasil Rock, off Cape Sable, on the night of the 21st, and backed off again in a leaky state. About three hundred of the passengers, consisting of the women and children, were put on board a schooner at sea, and landed here last evening—all well. The ship succeeded in getting into harbor to-day, by continually working the pumps, with loss of rudder.

New York, May 21.—The steamship Black warrior arrived from Havana with dates to the 15th inst. A report was current at Havana, that the Spanish steamer hourly expected would bring orders for the immediate commencement of hostilities against Mexico to be opened by a naval attack upon Vera Cruz.

☞There is an article selling throughout the country that has attained the widest celebrity ever known as a Liver complaint. We have references to Dr. Sanford's Invigorator, or Liver Remedy, that has performed cures almost too great to believe, were it not for the undoubted evidence that accompany the testimonials. Dr. Sanford has been for a long time one of the eminent physicians of New York, and it is said, most of his cases were treated with the Invigorator with such invariable success that he has been induced to offer it as a family medicine, and let the world have the benefit of his discovery. If those who are troubled with debility, head-ache, &c., will try a bottle, they might perhaps save years of suffering.

To the Patrons of the Argus.

The [illegible] of the publishers of this paper will oblige them to call upon those with whom they have accounts, for a SPEEDY SETTLEMENT; and in order that *all such* may be seen, one of the publishers will accompany H. B. Anderson, Esq., the County Treasurer, while filling his appointments in the different townships, so that a settlement may be effected without loss of time to any party but ourselves. While other papers, almost everywhere, are obliging their patrons to pay in *advance*, *ours* will certainly not take it hard when we but ask them to pay up *arrears*, or at least to give us their due bills for whatever the amount may be.

☞The Legislature having adjourned, we take this occasion to return our thanks to D. L. IMBRIE, Esq., for numerous favors received at his hands.

☞On the outside of to-day's issue will be found a highly interesting letter from a friend in the West. Our readers, we doubt not, will join with us in the hope that he will favor us with his letters as frequently as circumstances may permit.

THE INTOLERANCE OF SLAVERY.

It is perhaps not generally known that a Miss Miner, of Western New York, established some four years since, in the city of Washington, and has maintained ever since that period, a school for the education of free colored youth. It has been under the supervision of a Board of Trustees, composed of eminent men in, and outside the District of Columbia. To augment its usefulness, and extend the field of its operations, the trustees recently purchased eligible grounds within the limits of the city, with the design of erecting a stately edifice, more suitable for the reception of the free blacks of the District, and those of the adjacent States.—Our attention has been forcibly arrested by the appearance, in a late number of the National Intelligencer, of a communication from the pen of Hon. Walter Lenox, an influential citizen, and an ex-Mayor of the city of Washington intimating, very plainly, that the further probe tolerated, and must be arrested at any and all hazard. He says: "Justice to ourselves and kindness to the free blacks require that we should prohibit immigration, and encourage their removal from our midst." "We cannot tolerate an influence in our midst which will not only constantly disturb the repose and prosperity of our own community and of the country, but may even rend asunder the "Union itself." Such a protest it is the duty of our corporate authorities to make. Its beneficent effect may be to persuade the supporters of this scheme to abandon its further prosecution, but, if otherwise, the responsibility will be with those who, by their own wanton acts of aggression, make resistance a necessity and submission an impossibility."

Does it not grate harshly in the ears of freemen, that at the National Capitol, belonging, in common, to all the States, and where Millions upon Millions of the public money is expended, the simple privilege of establishing and endowing a school, by private means, without the aid of a dollar from the General Government, is sought, and doubtless will be, successfully denied? Does it not sound strange—passing strange—that in a City, located upon National ground, built up, kept alive, beautified and enriched by National funds, and wearing the honored name of the immortal WASHINGTON, the advantages of social, moral and mental training must not be extended to a class of poor unfortunates, whose "skins, peradventure, are not quite so fair as they might be? Is not that a demoralizing and intolerant system which fears the enlightenment of darkened intellects, and seeks to obstruct the onward march of that benificent cause which is justly regarded as the pride and the glory of the country, the bulwark of our liberties, and the true secret of our National greatness?

Adjournment of the Legislature.

Both branches of the Legislature adjourned finally, on Friday last. This has been the longest session we have had for many years.—It has also transacted an amount of business greater than ever before accomplished by any of its predecessors. The greater portion of it, as a matter of course, has been of a local character. Some Eight Hundred and Forty bills have been passed and received the sanction of the Executive. Among the measures of general interest, may be mentioned the Bill for the sale of the Main Line; the Apportionment bill; the Appropriation bill; bills authorising the incorporation of a number of new banks; bill prescribing time and manner of submitting to the people proposed amendments of the Constitution; bill establishing a general system of Normal Schools.

When the smoke shall have cleared away somewhat, we shall probably be able to glean the amount of legislation extended to this county. And it may not be inappropriate, in this connection, to say that so far as our observation has extended, our Senator and the members of the House from this District, have stood faithfully to their posts, and been prompt and indefatigable in their efforts to accede to the wishes and supply the wants of their several constituencies.

☞The work on the new Jail is progressing rapidly. Workmen are now engaged in tearing down a portion of the old building, for the purpose of using some of the material in the construction of the new.

☞It is reported that the Pennsylvania Railroad Company has leased the Pittsburgh & Steubenville Railroad for a term of twenty years.

FENCING THE RAILROAD.—Last week we announced the fact that the bill providing for the fencing of Railroads in this vicinity, had been defeated in the Senate by a majority of two votes. This action, in view of the serious slaughter of valuable stock belonging to our citizens, occasioned, as might be expected, very general regret. Notwithstanding this refusal of the Legislature to grant relief, and notwithstanding also, the decision given by the Supreme Court of the State, a few years since, favorable to the interests of Railroads, it affords us much pleasure to state that it is the intention of the Cleveland & Pittsburgh Railroad Company to enclose a portion of their road; and that preparations having that end in view, have already been commenced. This is an instance of magnanimity as rare and refreshing as it will be gratifying to the owners of stock in this community.

CHANGE OF TIME.—The Summer arrangement for the running of cars on the Pittsburgh, Ft. Wayne & Chicago R. R., went into effect yesterday. Until otherwise ordered they will pass Rochester station, as follows:

Trains going West.—First Express 4,05 A. M., Mail 10,08 A. M.; Second Express, 3,25 P. M.; Accommodation, 10,55 A. M and 6,48 P. M.

Going East.—Mail train 12,32 P. M.; First Express 7,37 P. M; Second Express, 5,34 A. M.; Accommodation 7,01 A M. and 1,20 P. M.

PROMISE OF GOV. WALKER.—In a speech delivered at New York, on the 13th inst, Gov Walker, the new Governor of Kansas, gave utterance to the following distinct and emphatic declaration. Should he have sufficient strength to carry it out in good faith, the voice of the Free State men may yet be heard, notwithstanding the studied effort to disfranchise a large portion of their voters:

"So far as the utmost exercise of his official powers and his personal influence would go to secure that result, he was determined the *people of Kansas should have an opportunity for a full, free, and solemn expression of their will upon the adoption of any Constitution that might be framed, after a fair and satisfactory census of all the bona fide inhabitants who might be in the Territory at the time.*"

RESIGNATION OF JUDGE CUNNINGHAM.—We see, by a telegraphic dispatch in the Philadelphia News, that the Hon. Thomas Cunningham, of this place, has resigned his position of Associate Judge of the Supreme Court of Kansas—The cause of the resignation is not assigned; but we presume it grows out of either the inadequacy of the salary, or from a disinclination to remove his family to that distant region, to encounter the inconveniences and privations inseparably connected with the settlements of new countries.

IMPORTANT SUIT DECIDED.—The Circuit Court of the United States, now in session at Pittsburgh, has had before it, for some time the trial of James Patterson vs. Elihu Evans, on an action of ejectment for a tract of land in Beaver county. The case was concluded on for the plaintiff. Thos Williams, Esq., applied a new trial, but the motion was overruled by the Court.

☞At a meeting recently held at Enon Valley, to give expression to the opposition of the citizens, against the issue and sale of certain Railroad bonds, by the Commissioners, to the amount of $475,000, it was resolved to call a County Convention, to meet in New Castle, on the 5th of June, to take such further action in the premises as may be deemed expedient.

☞The most gratifying feature in the closing proceedings of the Legislature was the striking out of the Sunbury and Erie Railroad bill, by the Senate, the clause proposing to barter the credit of the Commonwealth in the sum of $3;000,000, to aid in the construction of that work.

☞Will. A. Stokes, Esq., who, it will be recollected, was the leading counsel in the M'Kim murder case, has been engaged to assist the District Attorney of Allegheny county, in the prosecution of the alleged murderers of the Wilson's, near McKeesport, a short time since.

☞A bill has passed both branches of the Legislature, and has doubtless been signed by the Governor, providing for the establishment of a voluntary system of Normal Schools throughout the State.

☞Dr. L. D. Gale, an Examiner in the Patent office, at Washington, has been compelled to resign his position, simply from the fact that he happens to be a trustee of a free colored school in that city.

☞Gov Pollock, last week, signed the death warrant of M'Kim, recently convicted at Hollidaysburg of the murder of Nororss, near Altoona, in January last. The 21st day of August has been fixed for his execution.

☞Hon. D. A. Finney, of the Erie District has been elected Speaker of the Senate; holding over to the next session, and becoming Governor in the event of a vacancy by death or otherwise.

☞Two brothers, and printers, Joseph and W. J. M'Masters, late of Pittsburgh, were drowned a short time since, by the upsetting of a skiff at Reed's Landing, near Lake Pepin, Minnesota.

☞A Protest against the sale of the Main Line, signed by thirteen Senators, headed by Mr. Wilkins, of Allegheny, has been entered upon the Journal of the Senate.

☞The House of Representatives, on the 17th inst., passed a bill incorporating the Lawrence Coal and Iron Company in Big Beaver township.

☞The General Assembly of the Presbyterian Church of the United States, (N. S.,) is now in session at Cleveland, Ohio.

☞The official table of the Judicial Election in Michigan, shows an average Republican majority of 12,180.

☞The trial of Eckel, the supposed accomplice of Mrs. Cunningham, in the Burdell murder, has been postponed until September.

☞William McKay, has been appointed Postmaster at Black Hawk, Beaver county.

☞Hon. Thos H. Benton lectured in Pittsburgh last evening.

☞The June Term of Court commences on Monday next, the 1st proximo.

MESSRS. Editors:—Can you inform us why the Rochester package of the "Argus," for last week, did not arrive here as usual?

It did not reach here until it was one week old, and your subscribers had the satisfaction of receiving the issue of the 13th and of the 20th on the same day. A SUBSCRIBER.

In answer to the above query we would say that the package containing our issue of the 13th was mailed at this office, regularly as usual; but through some mishap it was put in a wrong mail bag, sent in a wrong direction, and came back upon us, after the lapse of a week, and just as we were in the act of mailing our issue of the 20th. Who it was that sent it upon its "wild goose chase," we can not say We mail the Argus to our subscribers in Rochester every Wednesday morning, with unfailing regularity. We know of no good reason why they should not receive it punctually on that day.

For the Beaver Argus.

TO CAPITALISTS, MANUFACTURERS MECHANICS &c.

Rochester or Beaver City, May 1857.

The undersigned—having control of large quantities of valuable town Lots, Blocks, and adjacent grounds,—with Iron Ore, bituminous coal, cannel coal, lime stone, fire clay, hydraulic cement, water power, &c., at the *mouth and falls of Beaver, Pa.* and on the margin of Streams, canals, and Rail Roads, between the mouth of Beaver and Cleveland, Erie, and other ports on the Lake—will be happy to treat with persons willing to convert their *dimes* into *dollars*, and their *dollars* into *Eagles*, or their skill, industry and credit, into healthy, happy, village homes of their own; or into rural gardens and farms, of productive agricultural *acres under which acres* are thousands of tons of *coal, Iron* and other *mineral wealth*, to enrich themselves, their children, and their children's children, for generations to come

Rochester or "*Beaver City*"—next to Pittsburgh—is to be a prominent mining, manufacturing, mechanical and *commercial centre* from which, the South west, and the north west are to be largely supplied with bituminous and cannel coal, Iron, lime fire-Brick, Pottery, glass, carriages, agricultural implements: Steam Engines, Rail Road Cars, Locomotives, heavy cast and wrought Irons,—and hundreds of other bulky and cumbersome articles of western requirement and consumption—because they can be supplied more cheaply and more conveniently *here*, than from those places hitherto relied on,—more remote, less accessible, and where the *manufacturing Elements*, the grounds, rents and living, are all *more expensive*.

Look at the *map* of *western Pa.* and *eastern Ohio*, an hundred miles around *Rochester or "Beaver City"*—Look at the Geography, Topography, Geology and mineralogy,—at the Rivers and Lakes, the canals and Railroads,—the steamers and Canal Boats, the Locomotive and Rail Road trains; the Telegraph wires, and the smoke from a thousand furnaces, forges, and *workshops*, which (to say nothing of a thousand in Pittsburgh) there are at this time, no *lishments* in operation in "*Beaver City*"—doing a business of two or three millions of dollars annually and among them, a *Car* Factory, in *Rochester* manufacturing to the extent of half a million of dollars, annually, and a *Locomotive* and *Steam Engine Establishment*, now being built at the same place, which will do double that amount, and give employment to *hundreds of operatives*.

Look to the dozens of chartered and other *companies*, formed, and being formed, for working Iron, Coal, and other minerals in every direction, up the *Beaver* and all its tributaries; and along all the converging and diverging lines of *River, Canal* and *Rail Road*, by which this locality is surrounded.

Look at thousands of industrious citizens now laboring in the inexhaustible beds of Iron *Ore*, of bituminous and cannel Coal, around this centre, and conceive the mountains of Iron to be produced—the millions of gallons of *oil* to be extracted from cannel coal, at ROCHESTER,—and its *vicinity*, to supply the east, west, north and south,—and thus lessen the exorbitant *Oil Tax*, now levied on *Hogs* and *Whales* in every land, on every sea and ocean, on this Globe.

The *Cannel Coal* of Beaver Co. Pa. which yields from *thirty* to *forty gallons* of *Oil*, to the *ton*—is ten fold more abundant at *Darlington*, than at the far-famed Brackenridge mines of Kentucky, whose *product* (when taken down the Ohio and the Mississippi, through New Orleans—and thence by ship loads to New York) commands in that market Fifteen to Eighteen dollars per ton: though as good coal for fuel, for burning fluid, for gas, for lubrication and for other purposes, can yet be brought in the *mines of Beaver* County near Rochester, for *ten cents a ton*, or, in Rail Road Cars upon the *Track*, ready for market, at *one dollar per ton!!!*

To facilitate the erection of an hundred more new tenement houses in Rochester and Brighton, the present season, a few *choice lots will be exchanged*, at cash prices, for labor, lumber, stone, brick, lime, glass, nails, paints, building hardware, dry goods, groceries &c,—mechanical labor of most kinds, will be equally acceptable, and received in lieu of cash.

Grounds, Buildings, Steam Power, and water power, will be *subscribed* and *put in*, as so much *Capital Stock*. In all new manufacturing establishments, which may be erected at Rochester, or at Brighton the present season.

Any builder, or building association who will erect, this spring and following summer,—ten, twenty, or thirty cheap tenement houses; worth one hundred and fifty to five hundred dollars each, upon lots to be set apart for that object in the villages of *Rochester or Brighton*, shall receive quarterly cash rents, at the rate of 15 per cent per annum, on the actual cost of such tenement houses or buildings, till such tenements or buildings are paid for, in cash; or the builder pays *cash* for the lot on which it is erected—the cash value of the lot being first agreed on, and the cost of the *building* determined by the Book of prices and current usage of the place at the time

M. T. C. GOULD.

May 27. *Rochester, Pa.*

☞A sale of Lots will take place at Rochester, on Friday June 5th 1857, at 11 o'clock, A. M.

There are 50 insane asylums in North America with 9500 inmates.

A case was tried in the United States Circuit Court, Western District of Pennsylvania, before Justice Grier, last week, which excited a good deal of attention.—This was the case of James Patterson vs. Elihu Evans, which came on for trial on the 12th, and closed Tuesday morning the 21st of May, when, on charge of Justice Grier, the Jury rendered a verdict for Plaintiff Hon. C. Shaler, N. P. Fetterman and R. Woods, Esqs., for Plaintiff, Hon T. Williams, B. B. Chamberlin and R. C. Sproul, Esqs., for defendant.

The case was an ejectment for 172 acres of land near New Brighton, Beaver county, the conflict of title going as far back as 1794. The Plaintiff deduced title to two warrants of William Barker and Joseph Williams, dated 3d of April, 1792, popularly known as contested "Broadhead warrants," the property for which they were drawn up having been surveyed on the 4th of April, 1794. The defendant deduced title by settlement of William and James Harvey, whose improvement began as early as 1796; so that the real question arose on location of warrants, whether north, or as embracing the Harvey tract—the plaintiff alleging defendant within, and defendant, that he was without the surveys, according to lines claimed on the ground. The investigations elicited a great mass of testimony as to the early and local history of Beaver Falls; Benjamin Townsend, a witness, going back to 1798, being one of the first settlers at Fallston, at which time he found William and James Harvey in possession of the land in dispute, and Wm. Williams, an old settler, on a portion of Barker and Williams' warrants not in dispute. The question of locations went back 70 years. Those under whom the plaintiff claimed, occupied the land altogether 20 years, and defendant and those under him, 41 years, neither relying upon statute of limitations

The case occupied all of Tuesday, 19th inst., in the argument. Messrs. Shaler and Woods on the part of the plaintiff, and Messrs. Williams and Chamberlin on behalf of defendant. It was submitted on Wednesday, by Justice Grier, to the jury, in a charge strongly in favor of the plaintiff's case. The jury, in accordance with instructions, found for the plaintiff—a result unfortunate to a man, whose all, we are informed, was at stake, and for whom, long known as one of the earliest pilots on the Ohio, great sympathy was manifested. —*Pittsburgh, Gazette.*

LAKE SUPERIOR SNOWS AND WEATHER.—The Ontonagon Minor speaks of the past winter as peculiarly prolific in snow. Its depth upon the Range was scarcely less than five feet, and up to April 11th but very little had passed off in shape of water, though its depth had been much reduced by the sun's rays. A fresh addition of a foot was made, however, early in April.—The weather for six weeks up to the 4th of April is described as delightful. The mercury then fell below zero; the 6th two degrees below at Ontonagon, and at the Norwich Mine 19 deg. below on the 7th.

☞Carnaghan, Allegheny City, who is now extensively known as a manufacturer of first class clothing, has now on hand an inviting and attractive stock of summer wear of many grades, styles and sizes.—The established reputation of his business is a sufficient guarantee that buyers will be well suited at his establishment.

Interesting from Mexico.

Our regular Mexican mail, at hand this morning, brings fuller and later intelligence than we had last evening—to the 1st inst., from the city of Mexico. The Sonora fillibusters had been completely routed near the village of Coboreo, sixty of whom were taken prisoners, and among them Capt. Crabb, himself, who was severely wounded. The engagement, says the *Trait d' Union*, was severe and bloody. The prisoners were all to be shot. The *Estandarte* publishes the following official account brought by the Extraordinary of the 21st from Mazatlan:

The first of April, a body of the National Guards, under Capt. Rodriguez, met at the village of Caborca, the fillibusters who entered the State of Sonora by way of Sonoyta. The fillibusters had seized upon the village. The Guards attacked it vigorously. In the first onset, Capt. Rodriguez fell mortally wounded. Capt. Crabb also was wounded and eight of his men killed. The Guards, however, finally succeeded in getting possession of the church, which proved an advantageous position.

On the 2d the fillibusters found themselves in possession of two houses in face of the church, but surrounded by a force of 200 to 300 men. Things remained in this condition about four days, the Sonorians meanwhile strengthening themselves

On the evening of the 6th one of the houses in possession of the fillibusters was fired. The flames communicated rapidly to the other, and in half an hour both buildings were in a blaze. An attack was also made upon the besieged from without, and, among other things, two barrels of powder belonging to the fillibusters, exploded, doing dreadful execution. Finally, they surrendered at discretion. The number of prisoners was fifty-nine, and among them Capt. Crabb himself. Twenty-four rifles and some munitions also fell into the hands of the Sonorians.

This is the substance of the account given by the Mexican papers, whatever truth there may be in it. The number of fillibusters is estimated by the same authority at one hundred and fifty; the Sonorians, on the 6th, numbered seven hundred.

It is said that the prisoners were all to be shot on the 6th.—*N. O. Eve. Picayune, May 14.*

THE RIGHT SPIRIT.

Our spirited cotemporary—the Philadelphia *Sun*—in a very excellent article urging upon the friends of the Union State ticket the necessity of union and concert of action preliminary to the October election uses the following patriotic language:

"A most golden opportunity presents itself for victory. A great and tangible good is within your reach. The salvation of the state from the domination of a reckless and unprincipled party is the duty which lies before us. It is imperative upon every lover of the Commonwealth. No friend of truth and right can withhold his influence when [illegible] is arrayed for mastery against faction and sectional aggression. A slight sacrifice of time, a little outlay of labor, a very little yielding of prejudice, a little revival of interest will secure a decisive and glorious victory. Let all who would not see their strength wasted upon mere forms and shadows, come up enthusiastically to the work. Under the rallying cry of Freedom, Fraternity and Victory, let the work of organizing and canvassing each ward, borough, township and county in the State be at once begun and prosecuted with vigor. Let clubs be formed every where, and let our flag wave in triumph over the field of Locofoco discomfiture and disgrace."

We sincerely endorse the recommendations contained in the foregoing extract, and fully concur with the writer as to their importance. The great triumph can only be achieved by the active and determined efforts of the opponents of the present National administration, in the several districts of the Commonwealth. A full vote in this instance will ensure a victory for the Union ticket that will astound and overwhelm its opponents.—*Pitts. Gaz.*

THE CROPS.

Our crop advices continue to improve as the season advances. The most discouraging reports that we have heard were from Illinois; but the news from that quarter has very much improved.—The Chicago Tribune of Saturday, referring to the reported Wheat failure in that State says:

"The prospect for a bountiful harvest has but seldom been more promising than at this season. We have heard considerable croaking, as usual, but the more reliable information from both the Southern and Western counties is of the most encouraging character, and we feel almost certain that if the weather is anything like favorable through the summer, the State of Illinois will yield full an average harvest the present year."

Of the prospects in Missuri, the St. Louis Republican of Monday says:

"We conversed yesterday with a gentleman who had just returned from a tour through fifteen counties in Sotheast Missouri, who informs us that the wheat looks well in all those counties and promises a good crop. He thinks there cannot be less than a two thirds yield, and represents the farmers of that section as greatly encouraged."

Death of Mrs. Vondersmith.

A SCENE OF GREAT DISTRESS.

MRS. Vondersmith, wife of Judge Vondersmith, whose re-arrest we noticed some days ago, died on the 17th, after a painful and protracted illness. The death-scene which occurred under peculiarly distressing circumstances, was rendered still more painful by the dying wife and mother giving premature birth to a child a few minutes before her dissolution. Her brother, Dr. John Leonard, had been committed to prison for thirty days, the day previous for drunkenness and disorderly conduct, but was released through the intervention of friends, in time to see his sister die.—Her husband and the father of her children, all old enough to realize their situation, lying in prison in Philadelphia, charged with a high crime, and the cries of the children for parents both lost to them, altogether presented a scene of sorrow and distress rarely witnessed by human eye—The house in which the family resided is subject to a lien of $7,000 with three years interest, which the government holds as an indemnification of the forfeited bail, and the children are therefore left not only orphans but homeless.—*Lancaster Exp.*

THE MICHIGAN SUFFERERS.—From statements made at the meeting in Detroit for the relief of the famishing people of the Northern counties of Michigan, it appears that the great destitution prevails on the Pine and Tittebewasse rivers and their tributaries. The first season after the Graduation Land Act was passed, settlers took up these lands and did what they could. The next year fire devastated the woods and fields, Last year the corn was killed, the hard winter and spring destroyed their horses and cattle, and debilitated by abstinence and insufficient food they cannot help themselves. This suffering extends to some 3000 people scattered throughout the northern counties.

THE WHEAT CROP.—In Tennessee the wheat crop is in a very flourishing condition, and will be twenty-five per cent larger than the great yeald last year. The present crop will be ready for harvessing in about a month, and in a month more some of it may be in the hands of the merchants, notwithstanding the croaking, the crop of the United States, it is said will be a very good one this year. There is a large breadth of land sown with wheat, and even if a part of it is winter-killed, and still more is damaged by the backward spring and other causes, there will still be left a yield above the average of past years.

What Hollanders think of Boerhaves Holland Bitters.

J. Quiutus, Ed. of the Sheboygan *Nieuwsbode*, in a letter dated September 6th, 1854, thus remarks:

"You will observe that I have published several certificates lately. These are *not mere puffs*," but literally true; and should you continue advertising with us, you may expect to secure large orders from every Holland settlement in in the United States."

This is an extract from one of the many letters received from the Holland settlements. Surely when Hollanders recommend the Holland Bitters so warmly, Americans may not hesitate in testing its virtues for themselves.

A New Kansas Project Foreshadowed.

The New York *Herald* of yesterday, has a telegraphic despatch from Washington foreshadowing a new mode of settling the Kansas difficulties, which is said to be the plan of Robert J. Walker. It states that Governor Walker's programme is to allow the pro-slavery party to go on and frame their slave State Constitution; to allow the free State party, at the same time, to hold as many conventions and pass as many indignation resolutions as they please, and to throw all the proceedings of both parties into the next Congress, with a splendid manifesto in behalf of his new compromise. And what is that? The simple scheme of giving the lion's share of Kansas, as now organized, to the Free State party for a free State, and of forming the boundaries for a new slave State by adding to a small slice of Southern Kansas a large slice from the splendid Indian country south of it; the slave state and the free State to come into the Union together. Gov. Walker is now on his way to Kansas, and a short time will suffice to show what truth there is in the foregoing statement.

CHANGE OF FORTUNE.—A year or two since the hemp market, in consequence of the Russian war, was considerably excited, and a speculative movement was the consequence.—One merchant in Boston, who operated extensively, found himself a loser of $50,000. The same merchant recently embarked in the sugar business, the price of which, in consequence of short crops, combinations, &c., has nearly doubled in a year, and he now finds himself a gainer of $50,000—exactly the sum he lost in the hemp speculation.

UTAH.—The Washington correspondent of the N. Y. Times, says:

"A large military force has been ordered for Utah, to take their position on the Government Reserve, forty miles south of Salt Lake City. The new Governor of the Territory has been selected, but has not yet been heard from, and his whereabouts is unknown. Whoever and wherever he may be, it is understood that he was recommended by Mr. Bright of Indiana."

☞ There are plenty of young gentlemen as well as plenty of old ones, whose beards are turning gray, giving the former a great deal of uneasiness, and exposing the age of the latter. To avoid these little perplexities we advise such of our readers to use Prof. Wood's Hair Restorative which will in the course of a few weeks, change the hair to its natural color. It does not dye the hair like the most of the hair restoratives, but produces a gradual change of color from the roots of the hair to the final end, and gives it a fine and glossy appearance. We have seen many persons who have used it successfully, and pronounced it the only invention which has come up to their idea of a cure for gray heads. We know several old maids and some young widows, whose locks are just beginning to assume a silvery hue, and who have been talking seriously about resorting to this remedy, and we advise them not to delay any longer. It never fails.—[St. Louis Herald.

June Appointments

DR. H. TUBBS,

Will be at his room, Bridgewater, Lehmer's Hotel, Monday, June 15th, 1857.

For consultation upon all diseases of the Throat, Lungs, Heart, Liver, Stomach, Bowels, Kidneys and Spleen; also Dropsy, Gravel, Rheumatism, Nervousness, Debility, Dyspepsia, Female diseases, Ague and Fever, Fits, Impurities of the blood, Eruptions, Cancers, Ulcers, and all other varieties of long standing complaints, both external and internal.

For some ten years Dr. T. has devoted his entire time to chronic diseases, treating thousands annually, many of whom had exhausted every other resource within reach. In no case are mineral or other poisons employed, nor does he make sick to make well, or tear down to built up again. The medicines can be taken with safety by the most delicate, and patiens may remain at home, and continue with prudence their ordinary diet and excercise. Many have recovered under the treatment after friends and physicians had given up all hope, the indisputable evidence of which can always be furnished. Invalids, however reduced or despairing, are invito call, and may be assured that no encouragement will be given or expense incurred, without a corresponding prospect of recovery.

Thompson tp., Seneca co., O., Jan. 1857.

DR. TUBBS, Sir:—I have delayed sending you a statement of my case but it may be acceptable now. You will remember my condition when I first saw you at Sandusky city, three years ago. It was only by the greatest exertion that I could get to your room. My sickness had been of five months duration, and its ravages had been such that friends and all who saw me supposed I had but a short time to live at longest. The oldest and best physician in Sandusky, and others residing in Seneca, Huron and Erie counties, had examined and prescribed for me, notwithstanding which, I became worse and worse, I could take but little food, and that little seemed to do me no good, nor did any thing taken, in the least help me of it.

You told me recovery was possible but doubtful. I obtained medicines and in ten days was sensibly improved. At your return, a month later, I was recovering rapidly, and in a few months became as healthy, apparently, as at any time since my youth. For more than twenty-two years I have resided where I now do, and in Groton, Erie county. Being extensively known in these two and some neighboring counties. Any one can get additional testimony from my acquaintances, none of whom supposed I could live three months from the time I first saw you. I am thus particular that others may know where to seek relief from dangerous chronic diseases, when the ordinary remedies fail. Yours respectfully.

GEORGE OSTERHOUT.

"NO SUCH WORD AS FAIL."

A RESISTLESS REMEDY

HOLLOWAYS OINTMENT

CIRCULAR TO THE SICK.

The first hospital surgeons and medical publicists of Europe, admit the unparalleled anti-inflammatory and healing properties of this Ointment; governments sanction its use in their naval and military services; and the masses in this country and throughout the world repose the utmost confidence in its curative properties. It penetrates the sources of inflammation, which underlie the external diseases, and neutralize the humors which feed and exasperate the malady.

RHEUMATISM, SCROFULA, ERYSIPELAS,

These are among the most terrible and agonizing diseases of the muscles, the fleshy fibre and the skin; yet in their worst forms, and when seemingly incurable, they invariably disappear under a persevering application of this soothing, healing, antipote to pain and inflammation.

SALT RHEUM, FEVER SORES, STIFF JOINTS.

In cases of Salt Rheum, where medical waters, lotions, and every recipe of the pharmacopœa have proved useless, the Ointment will accomplish a thorough cure. Fever Sores heal quickly under its influence, and its relaxing effect upon contracted sinews is truly wonderful.

DISCHARGING ULCERS.

A most remarkable and happy change is produced in the appearance of malignant ulcers after a few applications of this Ointment.—The surrounding redness vanishes, and granules of healthy flesh begin to take the place of the discharged matter. This process goes on more or less rapidly, until the orifice is filled up with sound material, and the ulcer radically cured.

A WORD TO MOTHERS.

The young are the most frequent sufferers from external injuries, and therefore every mother should have this healing preparation constantly at hand. It is an absolute specific for sore breasts, and quickly removes the encrusted sores which sometimes disfigure the heads and faces of children.

SIGNIFICANT FACTS

This Ointment is universally used on board the Atlantic and Pacific whaling fleet as a cure for scorbutic affections and as the best possible remedy for wounds and bruises. Large supplies of it have recently been ordered by the Sultan of Turkey for hospital purposes.

Both the Ointment and Pills should be used in the following cases:

Bunions	Lumbago	Sore Legs
Burns	Mercurial	Sore Breasts
Chap'd Hands	Eruptions	Sore Heads
Chilblains	Piles	Sore Throats
Fistulas	Rheumatism	Sores of all kinds
Gout	Salt Rheum	
	Skin Diseases	Sprains
Swel'd Glands	Stiff Joints	Scalds
Ulcers	Venereal Sores	Wounds of all kinds.

Superior Clothing, for Men and Boys,

At low rates for Cash.

Extensive arrangements for the Spring trade, at Carnaghan's Clothing Hall and Furnishing Store, Federal St., near the Post Office, Allegheny city, Pa.

UNUSUAL inducements are now being held out to buyers of Fashionable Clothing, at the above place, as a very full stock of new style garments, both in Gents and Boys' wear, has been prepared for the opening of the season. All goods sold at this establishment are of an excellent character, being well sponged and carefully made, even to the commonest article in the stock. A choice variety of price goods, for custom work, is always on hands, embracing the higher grades of French and English Fabrics; and having recently secured the services of a popular Cutter from the East, whose taste and skill have gained him a high reputation among first class establishments in New York and Philadelphia, it is believed that no house in Western Pennsylvania enjoys better facilities for turning out handsome, graceful garments. A full stock of men and boys' white and colored shirts, underwear of silk, wool and cotton. Hosiery, gloves, ties, cravats, &c., will be found at low rates. Cash buyers are invited to examine the stock. [March 25, 1857.

BOERHAVE'S

HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,
DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND
FEVER AND AGUE,

And the various affections conequ ent upon disordered

STOMACH AND LIVER.

Such as Indigestion, Acidity of the stomach, Colicky Pains, Heatburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the sent of life, thrilling and quickening every nerve raised up the drooping spirit, and, in fact, infusing new hearth and vigor in the system.

NOTICE!—Whoever expects to find in this abeverage will be disappointed, but to the sick weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedia properties.

CAUTION.—The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Boerhave's Holland Bitters a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

Sold at $1 00 per bottle, or six bottles for $5:00, sold by the proprietors, Benjamin Page, Jr. & Co. Manufacturing Pharmaceutists and Chemists, Pittsburgh, Pa.

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical *pill*, but not easy to make the best of all *pills*—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient, hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, in any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine. Being sugar-wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions see wrapper on the Box.

AYER'S
CHERRY PECTORAL,

For the rapid Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

THIS remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. Aid not only is forthcoming, but a cure, when the disease is seated in the lungs, but for the milder varieties of Colds, Coughs, Hoarseness, &c., and for Children it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by—

AGENTS—Young, & Thomas Beaver, Dr. Smith Bridgewater; C. L. Kaiser, Rochester, Dr. Sargent, New Brighton; John Black Darling on, and by all merchants every where. Dr. O. Cunningham, Beaver.

FEMALE AGENTS WANTED

IN every Town or Village of the Union, to sell DR. SANFORD'S INVIGORATOR.

Many of our Lady Agents are making more than a living from its sale. No Money required until the medicine is sold; simply a good reference accompanying application.

The Invigorator cures Sick Headache.—Take one or two teaspoonful at each attack and it will soon disappear. For an overloaded stomach, or when food rises or sours, take the Invigorator after eating, and it will not prove disagreeable or oppressive. For Heartburn, Palpitation, or difficult breathing, take a teaspoonful once or twice daily. For loss of Appetite, Languor or Listlessness, the medecine is invaluable. It will restore the Appetite and make the food digest well. Night-mare take a teaspoonful on retiring and the demons of dream-land will all be fairies. After eating a hearty dinner, take a dose of Invigorator and it will remove all oppression or fullness. The Invigorator is a Liver Remedy of unequalled virtue, acting directly on that organ, curing Dyspepsia, Jaundice, Billious Attacks, Dysentery, Piles, Worms, and all Female Obstructions, for which it has no equal.

Any person after using a full bottle of the Invigorator for any of the above named Complaints, without benefit, can call at the Agents and get their money back. Sold at One Dollar per Bottle, by SANFORD & Co., Proprietors, New York, and by Young & Thomas, Beaver, and John Sargent, New Brighton.

The Greatest Medical Discovery OF THE AGE.

DR. KENNEDY, of Roxbury has discovered in one of our common pasture weeds a remedy that cures every kind of humor, from the worst Scrofula down to a common pimple.

He has tried it in over 1100 cases, and never failed except in two cases (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of Pimples on the face.

Two or three bottles will clear the system of Biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach

Three to five bottles are warranted to cure the worst cases of Erysipelas.

One to two bottles are warranted to cure all humor in the Eyes.

Two bottles are warranted to cure running of the ears and bloches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two or three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure he most desperate axe of rheumatism.

Two or three bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of Scrofula.

A benifit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after trial it always speaks for itself. There are two things about this herb that appear to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—In April 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a desease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you get and enough of it.

Directions—Aduits one table spoonful per day—Children over ten years dessert spoonfull. Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day. Manufactured by

Glad News.

FULL OF HOPE TO THE AFFLICTED AND SUFFERING!

Many of the thousand portals of Death may be closed, and life made happier, and more comfortable to thousands who are now in danger. Doubtless this world contains many a balm to soothe its physical woes and cure its diseases. Among those in prominent rank, stands

BOWMAN'S VEGETABLE COMPOUND,

A SAFE and speedy cure for Consumption, not only in those milder forms of Throat and Lung Diseases, such as colds, coughs, quinsey, difficulty of breathing, bronchitis, Ministers' sore throat, weakness of the chest, asthma, inward ulcer, spitting of blood, influenza, croup, whooping-cough, pain in the breast and side, hoarseness, catarrh and catarrhal affections, inflammation of the lungs, bleeding of the lungs, and such like. But its superior excellence is seen and tested in the more advanced affections of the lungs. For the truth of the above statement and the efficiency of the preparations as an antidote, we refer the public to the following testimonials:

Language is scarcely strong enough to tell the great power of this

WONDERFUL DISCOVERY.

The doubting may try and be convinced.

The Proprietors point to the following bona fide certificates with confidence on the community; they are but samples of the many hundreds of testimonials in our possession:

Philadelphia, Aug. 15. 1856.—Last spring, while in Pittsburgh, I had a bad cold and cough, which troubled me much, and a friend of mine gave me a bottle of Bowman's Vegetable Compound for diseases of the throat and lungs, which I commenced taking, and found relief almost immediately. I had taken many things for cough and hoarseness, but never got anything to help me as it has done. I believe it to be the best antidote for coughs and hoarseness that is out, and cheerfully recommend it to the public. THOS. H. STOCKTON.

Pastor 1st Prot. Meth. Church.

From Judge Vanhorn, of the District Court, at Cincinnatia.

Cincinnati, May 4, 1856.—I have used Bowman's Vegetable Compound for bronchitis and cough, and believe it to be the best medicine out for those diseases, and the only one I ever got to give me any permanent relief. It will cure. I recommend it to the public as an honest and efficient medicine, and will perform what it is published to do W. VANHORN.

TO THE PUBLIC.

I have used Bowman's Vegetable Compound in my family, for coughs, colds and Ministers' sore throat and believe it to be the best thing that I ever got for those complaints, and cheerfully recommend it to the public.

REV. J. GASTON.

Pastor of the Clinton st. M. E. Church,

June 10, 1855. Cincinnati.

Here is one from the old pioneer Methodist preacher of Ohio, Rev. J. B. Finley.

I believe Bowman's Vegetable Compound to be the best remedy for Diseased Throat and Lungs, of the day. I have tested it, and found it to be the best of all the popular remedies I ever tried, and I have tried very many. I recommend it to the public. Try it and you will be convinced of its superiority.

Cincinnati July 1856. Rev. J. B. Finley.

Hear what the celebrated Dr. Peck says:

New York, May 12, 1856.—I have used Bowman's Vegetable Compound for coughs and hoarseness in speaking; and believe it to be the best preparation for Throat and Lung complaints I ever got; and I recommend it to the public speaker and singer, as well as those afflicted with Lung diseases. J. T. PECK.

Hear what Dr. Benson, of Cincinnati, says: [Extract from a letter.]

"Bowman's Vegetable Compound contains a virtue which is not possessed by any other popular medicine in my knowledge. It does not only smoothe the disease over, giving it only temporary relief (like most of patent medicines,) but it commences at the root of the disease, and performs a perfect cure.
